INDEX TO VOLUME 21

A

Adolescence, abnormalities of, 93
Adrenal preparation, cortical extract, antagonism of pitressin and, in human diabetes insipidus, 326
Age at first appearance of three ossification centers, use of, in determining skeletal status of children, 335
Allen, Frederick H., 568
Allergy, 113 (Round table discussion)
Allergy, gastrointestinal, and celiac syndrome, 193
  a series of substitutes for milk in treatment of, 635
Amatruda, Catherine S., 147
American Academy of Pediatrics:
  Minutes, meeting of executive board, 258
  News and notes, 142, 283, 565, 703, 833
  Proceedings, eleventh annual meeting, 113, 264, 408, 551, 684, 805
  Report of annual meeting of Region III, 550
  Report of secretary, twelfth annual meeting, 818
Anderson, John A., and Murlin, William R., 326
Anemia, erythroblastic, fetal, skeletal changes associated with, 80
  nutritional, in rats, role of honey in the prevention and cure of, 763
  of infants, physiologic, influence of diet on, 769
Anomaly, congenital, of heart and central vessels, prognosis for children with; life expectancy in patent ductus arteriosus, 23
  patent ductus arteriosus, life expectancy in, 23
  transposition of great cardiac vessels, 1
Antitoxin titer, serum, observations on Schick test reactions and, after injections of toxoid, 665

B

Bakwin, Harry, and Bakwin, Ruth Morris, 429
Bakwin, Ruth Morris, and Bakwin, Harry, 429
Barnes, Marian, Flax, Leo J., and Reichert, John L., 475
Barnett, Henry L., Powers, John R., Benward, John H., and Hartmann, Alexis F., 214
Behavior, developmental diagnosis of pneumoencephalography and, 147
  problem of, 684 (Round table discussion)
Benjamin, Ben, Fleming, Grant, and Ross, Mary A., 665
Benson, Reuel A., Witzberger, C. Michael, Slobody, Lawrence B., and Lewis, Liese, 659
Benward, John H., Barnett, Henry L., Powers, John R., and Hartmann, Alexis F., 214
Birnberg, Victor J., and Hansen, Arild E., 775
Bismuth line of long bones in relation to linear growth, 211
Blackfan, K. D., May, C. D., and McCreary, J. F., 289
Blackstone, Clarence Harlan, and Stadler, Harold, 229
Blood vessels, cardiac, great, transposition of, 1
  central, congenital anomaly of, prognosis for children with, 23
Bodian, David, and Howe, Howard A., 713
Body weight; study of birth weights and ponderal growth of children of tuberculous mothers, 787
Bondi, A., Flosdorf, Earl W., Felton, Harriet, and McGuinness, Aims C., 625
Bone, development of, in preschool children, 504
Bones, long, bismuth lines of, in relation to linear growth, 211
Book reviews:
  Cabot's Physical Diagnosis, 285
  Chinese Lessons to Western Medicine, 567
  Directory of Medical Specialists, 287
  Diseases and Injuries of the Larynx, 433
  From Infancy Through Childhood, 285
  Management of Sick Infant and Child, 285
  Medical Genetics, 286
  Modern Attack on Tuberculosis, 288
  Nursing of Children, 285
  Pediatric Gynecology, 286
  Pharmacopoeia of U. S. A., Twelfth Revision, 567
  Postnatal Development of the Human Cerebral Cortex. II. Cortex of One-Month-Old Infant, 428
  Prevention of Deformity in Childhood, 285
  Psychiatry in Medical Education, 431
  Psychologic Care During Infancy and Childhood, 429
  Psychotherapy with Children, 568
  The Lymphatic System, 432
  The National Formulary, Seventh Edition, 433
  Vitamin K in Pediatric Practice, 428
  Your Children at School, 434

Borowsky, Sidney, Wolman, I. J., Nicholas, R., and Spur, B., 45
Brescia, Michael A., and Dobbins, James M., 378
Brokaw, Katherin F., Sedam, Margaret S., and Cassirer, Anne Marie, 769
Bronstein, I. P., Halpern, L. J., and Brown, A. W., 485
Brown, A. W., Bronstein, I. P., and Halpern, L. J., 485
Buehl, Clara C., and Pyle, S. Idell, 335
Buschke, Franz, and Parker, H. M., 524

C

Carter, William E., and Porter, Langley, 285
Carnes, William H., Follis, R. H., Jr., and Jackson, D., 80
Casparis, Horton, 684
Cassirer, Anne Marie, Sedam, Margaret S., and Brokaw, Katherin F., 769
Celiac disease, notes concerning cause and treatment of, 289
  syndrome, gastrointestinal allergy and, 193
Cerebrum, human cortex of, postnatal development of, in one-month-old infant, 428 (B. rev.)
Chadwick, Henry D., and Pope, Alton S., 288
Chemotherapy, 805 (Round table discussion)
Child, sick, management of infant and, 285 (B. rev.)
Childhood, from infancy through, 285 (B. rev.)
  prevention of deformity in, 285 (B. rev.)
Children, obesity in, 485
  preschool, bone development in, 504
  Weltmann reaction in respiratory diseases in, 514
  with congenital anomalies of the heart and central vessels; life expectancy in patent ductus arteriosus, 23
Chinese lessons to western medicine, 567 (B. rev.)
Coburn, Alvin F., and Moore, Lucile V., 180
Comment, 146, 835
Conel, J. LeRoy, 428
Conjunctivitis, acute, outbreak of, of unknown etiology, 343
Cooke, Jean V., 386
Coppolino, John F., 349
Critical review: Food contaminations and poisons, 392, 534
Cunningham, Josephine, and Halpern, S. R., 184

D

Davison, Wilburt C., 246, 727
Dees, Susan C., and Morton, Henry, 514
Deformity, prevention of, in childhood, 285 (B. rev.)
De Hoff, John, and Goldberg, Joseph D., 757
Diabetes insipidus, human, antagonism of pitressin and adrenal cortical extract in, 326
Diarrhea, acute, bacteriologic and chemotherapeutic studies in, of infants and children, 184
Diet, influence of, on the physiologic anemia of infants, 769
Diphtheria, immunization, concurrent, against tetanus, pertussis and, a comparison of fluid and alum-precipitated toxoids, 31
  toxoid, observation in Schick test reactions and serum antitoxin titers after injections, 665
Directory of medical specialists, 287 (B. rev.)
Dobbins, James M., and Brescia, Michael A., 378
Drinker, Cecil K., 432
Ductus arteriosus, patent, life expectancy in, 23
Dysplasia, ectodermal, hereditary, of anhydrotic type, 229

E

Ebaugh, Franklin G., and Rymer, Charles A., 431
Education, medical, psychiatry in, 431 (B. rev.)
Emerson, Paul W., and Green, H., 1
Encephalitis, toxoplasmic fetal, a type of congenital cerebral disease, 673
Enterobiasis in children, 497
Enzyme, therapy by, in infant feeding, 727
Erythroblastosis (*See* Anemia, erythroblastic)
Eugenics, heredity and, 246

F

Feeding, infant, enzymic, therapy in, 727
Felton, Harriet, McGuinness, Aims C., Flosdorf, Earl W., and Bondi, A., 625
Fitzhugh, Mabel L., and Thelander, H. E., 306
Flax, Leo J., Barnes, Marian, and Reichert, John L., 475
Flax, Leo, Levert, Edward L., Strong, Robert A., 717
Fleming, Grant, Benjamin, Ben, and Ross, Mary A., 665
Flosdorf, Earl W., Bondi, A., Felton, Harriet, and McGuinness, Aims C., 625
Fluoroscope, repeated examination by, possible hazards of, in infants, 524
Follis, Richard H., Jr., Jackson, D., and Carnes, W. H., 80
Food, contamination and poisoning by, 392, 534 (Critical review)
Forbes, Roy P., and Stevenson, A., 224

G

Garrahan, Juan P., Thomas, Gualterio F., and Larguia, Alfredo, 428
Gastrointestinal system, penetration of poliomyelitis virus from, in the chimpanzee, 713
Genetics, medical, 286 (B. rev.)
Gibel, Harry, and Litvak, Abraham M., 315
Glaser, Jerome, and Rydeen, John O., 374
Goldberg, Joseph D., and de Hoff, John, 757
Greeley, David McL., and Jorgensen, Gilbert M., 325
Green, Hyman, and Emerson, P. W., 1
Growth, linear, bismuth lines of long bones in relation to, 211
ponderal, study of birth weights and, of children with tuberculous mothers, 787
skeletal, of children, use of age at first appearance of three ossification centers in determining, 335
Gynecology, pediatric, 286 (B. rev.)

H

Habits, posture, in infancy affecting foot and leg alignments, 306
Halpern, L. J., Bronstein, I. P., and Brown, A. W., 485
Halpern, S. R., and Cunningham, Josephine, 184
Hansen, Arild E., and Birnberg, Victor J., 775
Hartmann, Alexis F., Benward, John H., Barnett, Henry L., and Powers, John R., 214
—, Wolff, Dorothy, and Love, Frances M., 435
—, —, —, and Kendall, Barbara S., 591
Haydak, Mykola H., Palmer, Leroy S., and Tanquary, Maurice C., 763
Heart, anomaly, congenital, of, prognosis for children with, 23
Heiman, Harold, Rapaport, Howard G., and Lehman, Edward, 733
H. influenzae, effects, relative in vitro, of sulfonamides on, 321
H. pertussis. X. Comparative antigenic analysis of B. parapertussis and H. pertussis, Phase I, with consideration of clinical significance, 625
Henle, Werner, Sommer, Harriet E., and Stokes, Joseph Jr., 577
Heredity and eugenics, 246
Hill, Allen, 207
Hodgkin's disease in infant, 238
Honey, role of, in prevention and cure of nutritional anemia in rats, 763
Hospital, ward of, studies on air-borne infection in:
I. Effect of ultraviolet light on cross infection in infants' ward, 569
Hospital, air-borne infection—Cont'd
II. Effects of ultraviolet irradiation and propylene glycol vaporization upon prevention of experimental air-borne infection of mice by droplet nuclei, 577
Howe, Howard A., and Bodian, David, 713
Hubbard, Elizabeth Vernon, 434
Hyde, G. Martina, and Schwind, Joseph L., 238
Hyslop, Henry W., Vollmer, Hermann, and Lomant, Harry V., 747

I

Ichthyosis, treatment of, with vitamin A, 733
Infancy, early, leucemia, myogenous, chronic, in, 73
habits, posture, in, affecting foot and leg alignments, 306
through childhood, 285 (B. rev.)
Infant, Hodgkin's disease in, 238
newborn, tetany in, 510
premature, study of mortality rates of, 717
sick, management of, and child, 285 (B. rev.)
Infants, diarrhea, acute, of children and, bacteriologic and chemotherapeutic studies in, 184
diagnosis and management of severe infections in, and children; a review of experiences since the introduction of sulfonamide therapy:
I. Sepsis of lateral sinus phlebitis, 435
II. Hemolytic streptococcal meningitis, 591
feeding of, soft curd homogenized milk in, 45
intestinal obstruction in, 264 (Panel discussion)
intoxication, salicylate, in, 214
physiologic anemia of, influence of diet on, 769
possible hazards of repeated fluoroscopies, 524
reactions, nonspecific serologic, for syphilis in children and, 207
Infections, air-borne, studies on, in hospital ward:
I. Effects of ultraviolet light on cross infections in infants' ward, 569
II. Effects of ultraviolet irradiation and propylene glycol vaporization upon prevention of experimental air-borne infection of mice by droplet nuclei, 577
severe, diagnosis and management of, in infants and children: a review of experiences since the introduction of sulfonamide therapy:
I. Sepsis of lateral sinus phlebitis, 435

Infections, air-borne—Cont'd
II. Hemolytic streptococcal meningitis, 591
Influenzae, hemophilus, relative in vitro effects of the sulfonamides on, 321
rabbit antiserum and sulfapyridine, treatment of meningitis with, 198
Intestinal obstruction in infancy, 264 (Panel discussion)
Intestine, motility of, vitamin A absorption and its relation to, in fibrocystic disease of pancreas, 475

J

Jackson, Chevalier, and Jackson, Chevalier L., 433
Jackson, Chevalier L., and Jackson, Chevalier, 433
Jackson, Deborah, Follis, R. H., Jr., and Carnes, W. H., 80
Jacobs, Alvin H., 497
Jeans, P. C., Russin, L. A., and Stadler, H. E., 211
Jorgensen, Gilbert M., and Greeley, David McL., 325

K

Kendall, Barbara S., Hartmann, Alexis F., Wolff, Dorothy, and Love, Frances M., 591
Kendig, Edwin L., Jr., 510
Kunstadter, Ralph H., 193

L

Lacy, Anna Margaret, and Novak, Milan, 321
Ladd, William E., 264
Landes, Jacob H., 343
Larguia, Alfredo, Thomas, Gualterio F., and Garrahan, Juan P., 428
Larynx, diseases and injuries of, 433 (B. rev.)
Lateral sinus phlebitis, sepsis of, diagnosis and management of severe infections in infants and children: a review of experiences since the introduction of sulfonamide therapy, 435
Laurence-Moon-Biedl syndrome, 793
Lehman, Edward, Herman, Harold, and Rapaport, Howard G., 733
Leucemia, myelogenous, chronic, in early infancy, 73
Levert, Edward L., Flax, Leo, and Strong, Robert A., 717
Levin, Paul M., and Moore, Halcuit, 673
Levy, Sol, and Lurie, Louis A., 793
Lewis, Liese, Benson, Reuel A., Witzberger, C. Michael, and Slobody, Lawrence B., 659
Life, expectancy of, in patent ductus arteriosus, 23
Limarzi, Louis R., Poncher, H. G., and Weir, H. F., 73
Litvak, Abraham M., and Gibel, Harry, 315
Lomant, Harry V., Hyslop, Henry W., and Vollmer, Hermann, 747
Love, Frances M., Hartmann, Alexis F., and Wolff, Dorothy, 435
—, —, —, and Kendall, Barbara S., 591
Lubschez, Rose, and Wilson, M. G., 23
Lurie, Louis A., and Levy, Sol, 793
Lymphatic system, 432 (B. rev.)
Lyon, George M., 392, 534

M

May, C. D., McCreary, J. F., and Blackfan, K. D., 289
McCreary, J. F., May, C. D., and Blackfan, K. D., 289
McGuinness, Aims C., Flosdorf, Earl W., Bondi, A., and Felton, Harriet, 625
Measles, ascending myelitis complicating, 374
sulfathiazole in the treatment of, and its complications, 315
Meningitis, hemolytic streptococcal, diagnosis and management of source of infections in infants and children: review of experiences since the introduction of sulfonamide therapy, 591
influenzal, treatment of, with anti-influenzal rabbit serum and sulfapyridine, 198
Menten, Maud L., and Scully, John P., 198
Mercupurin, fatality, immediate, following use of, 680
Milk, soft curd, homogenized, in infant feeding, 45
substitutes for, a series of, in treatment of allergies, 635
Miller, John J., Jr., and Saito, T. M., 31
Mitchell, Edward Clay, 705
Moore, Halcuit, and Levin, Paul M., 673
Moore, Lucile V., and Coburn, Alvin F., 180
Morton, Henry, and Dees, Susan C., 514
Murlin, William R., and Anderson, John A., 326
Myelitis, ascending, complicating measles, 374

N

National formulary, seventh edition, 433 (B. rev.)
Nephrocalcinosis, 382
News and notes, 142, 283, 565, 703, 833
Nicholas, Rae, Wolman, I. J., Borowsky, S., and Spur, B., 45
Nitrobenzene poisoning, 224
Novak, Milan, and Lacy, Anna Margaret, 321

O

Obesity in children, 485
Orthodontics, 551 (Round table discussion)
Oxyuris (*See* Enterobiasis)

P

Palmer, Leroy S., Haydak, Mykola H., and Tanquary, Maurice C., 763
Pancreas, fibrocystic disease of, vitamin A absorption and its relation to intestinal motility in, 475
Panel discussion: intestinal obstruction in infancy, 264
Parker, H. M., and Buschke, Franz, 524
Pediatrician and war, 103, 251, 406, 548, 702, 803
Pertussis, hemophilus; comparative antigenic analysis of Bacillus parapertussis, Phase I and, with consideration of clinical significance, 625
(*See* Whooping cough)
Pharmacopeia of U. S. A., twelfth revision, 567 (B. rev.)
Phosphorus, acute poisoning by, 378
Physical diagnosis, 285 (B. rev.)
Pitressin (*See* Pituitary preparation)
Pituitary preparation, antagonism of, and adrenal cortical extract in human diabetes insipidus, 326
Plant, James S., 684
Pneumoencephalography and developmental diagnosis of behavior, 147
Poisoning by food contamination, 392, 534 (Critical review)
nitrobenzene, 224
phosphorus, acute, 378
salicylate, in infants and children, 214
Poliomyelitis, penetration of virus of, from the gastrointestinal tract in the chimpanzee, 713
treatment, early, of, 353
Poncher, Henry G., Weir, H. F., and Limarzi, L. R., 73
Pope, Alton S., and Chadwick, Henry D., 288
Porter, Langley, and Carter, William E., 285
Posture, habits of, in infancy affecting foot and leg alignments, 306
Powers, John R., Barnett, Henry L., Benward, John H., and Hartmann, Alexis F., 214
Presidential address, 705
Psychiatry in medical education, 431 (B. rev.)
Psychologic care during infancy and childhood, 429 (B. rev.)
Psychotherapy with children, 568 (B. rev.)
Pyle, S. Idell, and Buehl, Clara C., 335

R

Raney, R. B., and Shands, A. R., 285
Rapaport, Howard G., Herman, Harold, and Lehman, Edward, 733
Reichert, John L., Flax, Leo J., and Barnes, Marian, 475
Report of Secretary, twelfth annual meeting, American Academy of Pediatrics, 818
Respiratory system, Weltmann reaction in diseases of, in children, 514
Rheumatic fever, salicylate prophylaxis in, 180
Robbins, Samuel D., 408
Rogers, Alfred Paul, 551
Ross, Mary A., Benjamin, Ben, and Grant, Fleming, 665
Round table discussions:
Allergy, 113
Behavior problems, 684
Chemotherapy, 805
Orthodontics, 551
Speech defects, 408
Russin, L. A., Stadler, H. E., and Jeans, P. C., 211
Rydeen, John O., and Glaser, Jerome, 374
Rymer, Charles A., and Ebaugh, Franklin G., 431

S

Saito, T. M., and Miller, J. J., Jr., 31
Salicylate intoxication in infants and children, 214
Salicylates, prophylaxis by, in rheumatic fever, 180
Sauer, Louis W., 285
Scarlet fever, a modified or reverse Schultz-Charlton technique in the diagnosis of, 757
Schauffler, Goodrich C., 286
Schick test, observations on, and serum antitoxin titers after injections of toxoid, 665
School, your children at, 434 (B. rev.)
Schultz-Charlton technique, a modified or reverse, in the diagnosis of scarlet fever, 757
Schwartzman, Joseph, 93
Schwind, Joseph L., and Hyde, G. Martina, 238
Scully, John P., and Menten, Maud L., 198
Sedam, Margaret S., Brokaw, Katherin F., and Cassirer, Anne Marie, 769
Sellew, Gladys, 285
Shands, A. R., and Raney, R. B., 285
Silverstone, Paul C., and Wolpe, Leon Z., 635
Skeleton, changes in, associated with erythroblastosis fetalis, 80
Slobody, Lawrence B., Lewis, Liese, Benson, Reuel A., and Witzberger, C. Michael, 659
Snapper, I., 567
Snyder, Laurence H., 286
Sodium sulfadiazine, subcutaneous administration of, 325
Sommer, Harriet E., and Stokes, Joseph, Jr., 569
—, —, and Henle, Werner, 577
Speech, defects of, 408 (Round table discussion)
Spur, Bernhard, Wolman, I. J., Borowsky, S., and Nicholas, R., 45
Stadler, H. E., Russin, L. A., and Jeans, P. C., 211
Stadler, Harold, and Blackstone, Clarence Harlan, 229

Stevenson, A., and Forbes, Roy P., 224
Stokes, Joseph Jr., Henle, Werner, and Sommer, Harriet E., 577
—, and Sommer, Harriet E., 569
Strong, Robert A., Levert, Edward L., and Flax, Leo, 717
Sulfapyridine, treatment of influenzal meningitis with anti-influenzal rabbit serum and, 198
Sulfathiazole in treatment of measles and its complications, 315
Sulfonamides, relative in vitro effects of, on hemophilus influenza, 321
therapy with, diagnosis and management of severe infections in infants and children: a review of experiences since introduction of:
I. Sepsis of lateral sinus phlebitis, 435
II. Hemolytic streptococcal meningitis, 591
Syphilis, nonspecific serologic reactions for, in infants and children, 207

T

Tanquary, Maurice C., Palmer, Leroy S., and Haydak, Mykola H., 763
Test, match, 747
Tetanus, concurrent immunization against diphtheria, pertussis and, a comparison of fluid and alum-precipitated toxoids, 31
Tetany in newborn infant, 510
Thelander, H. E., and Fitzhugh, Mabel L., 306
Thiamine, urinary, blood level of vitamin B_1 in healthy children and its relation to, 659
Thom, Douglas A., 684
Thomas, Gualterio F., Garrahan, Juan P., and Larguia, Alfredo, 428
Thrombophlebitis migrans, 775
Toomey, John A., 353, 805
Toxoplasmosis, fetal encephalitis from, 673
Tuberculosis, modern attack on, 288 (B. rev.)
mothers with, study of the birth weight and ponderal growth of children of, 787

U

Urquijo, Carlos A., and Weissmann, Mario, 787

V

Vaughn, John, 680
Vitamin A, treatment of ichthyosis with, 733
absorption of, and its relation to intestinal motility in fibrocystic disease of the pancreas, 475
Vitamin B_1, blood level of, in healthy children and its relation to urinary thiamine, 659
Vitamin K in pediatric practice, 428 (B. rev.)
Vollmer, Hermann, Hyslop, Henry W., and Lomant, Harry V., 747

W

Walzer, Matthew, 113
War, nutritional care of children in, 252, 406
pediatrician and, 103, 251, 406, 548, 702, 803
Weir, Homer F., Poncher, H. G., and Limarzi, L. R., 73
Weissmann, Mario, and Urquijo, Carlos A., 787
Weltmann reaction in respiratory diseases in children, 514
Whooping cough, concurrent immunization against tetanus, diphtheria and, a comparison of fluid and alum-precipitated toxoids, 31
prophylaxis of, 348
Wilbar, Charles L., Jr., 504
Wilson, May G., and Lubschez, R., 23
Witzberger, C. Michael, Benson, Reuel A., Slobody, Lawrence B., and Lewis, Liese, 659
Wohl, H., 382
Wolff, Dorothy, Hartmann, Alexis F., and Love, Frances M., 435
—, —, —, and Kendall, Barbara S., 591
Wolman, Irving J., Borowsky S., Nicholas, R., and Spur, B., 45
Wolpe, Leon Z., and Silverstone, Paul C., 635
